

I just wanted to Thank everybody at Whitehead Hancock for their professional and outstanding work on the furnace installation at 323 5th Ave. I really appreciated the willingness to answer my questions and make sure that I got the equipment that I needed and that I understood the different aspects of the system. I really was impressed by the effort and extra time put into making sure the gas line didn't leak so the meter could be put in that day. I would personally like to thank David, Reggie, Jay, and Dave for all the hard work.

Thanks again!

Karja C Wurtele
