HVAC PREVENTATIVE MAINTENANCE AGREEMENT

Just like with your vehicle, it is essential to protect the efficiency and lifespan of your HVAC system by maintaining all its components. The simplest and most inexpensive way to ensure your HVAC system is working to its full potential is to purchase a HVAC Preventative Maintenance Agreement. The yearly contract can reduce operational problems and repairs, reduce energy costs, improve your comfort and indoor air quality and provide reliability, all while extending the life of your system.

Whitehead-Hancock Plumbing, Heating & Cooling, Inc. happily offers maintenance agreements to our customers. Our HVAC Preventative Maintenance Agreement is designed to give you the comfort you deserve from your heating and cooling system. Comfort starts with peace of mind.

The HVAC Preventative Maintenance Agreement includes both precision tune-ups and maintenance of your heating and air conditioning system. Participating customers will receive two seasonal calls from our service department to schedule one Spring and one Fall visit from our trained technicians. We encourage you to act today and select this convenient approach toward keeping your system running smoothly.

SPRING – AIR CONDITIONING SERVICE

- Check Thermostat
- Clean or Replace Filters (as needed)
- Check Operating Pressures
- Clean Condensate Lines
- Evaluate Coil Performance
- Check All Electrical Connections
- Check Voltage and Amperage on Motors

FALL – FURNACE SERVICE

- Check Thermostat
- Clean or Replace Filters (as needed)
- Check All Components
- Check All Electrical Connections
- Lubricate all Moving Parts
- Check Voltage and Amperage on Motors

YES, I would like the HVAC Preventative Maintenance Agreement for \$245.00 per year.
